

## Sample Audit Report Template: Digital Commons Framework

**Purpose:** This template provides a standardized format for communities, Local Citizen Nodes, and Regional Hubs within the *Digital Commons Framework* to conduct and document audits of governance, resource management, and digital tool usage (e.g., data, software, infrastructure) to ensure ethical compliance, transparency, and equity. Rooted in transparent commons principles (e.g., Iroquois Confederacy's accountability mechanisms) and aligned with UN Sustainable Development Goals (SDGs 10, 16, 17), it is designed for accessibility in low-resource settings, supporting paper-based, SMS, or digital formats. It aims for 95% audit compliance across nodes by 2035, fostering trust and accountability in managing shared digital commons.

### Overview

The *Digital Commons Framework* enables communities to govern digital resources equitably through decentralized, transparent systems. The *Sample Audit Report Template* ensures nodes adhere to ethical standards (e.g., privacy, fairness, sustainability) by documenting audits of governance decisions, budgets, data usage, and tool operations. Accessible to all skill levels, it supports low-literacy users with oral or paper-based methods and aims for:

- **Compliance:** 95% audit compliance across nodes by 2035.
- **Transparency:** 100% auditable reports via blockchain by 2030.
- **Equity:** Prioritize marginalized communities (e.g., Indigenous, rural).
- **Inclusivity:** Support 50 languages and Indigenous protocols by 2030.

#### Template Goals:

- Standardize audit reporting for consistency and accountability.
- Identify and address ethical or operational issues.
- Engage communities in transparent governance.
- Align with sustainability (80% renewable energy by 2035).

#### Relevance:

- Aligns with SDG 10 (Reduced Inequalities), SDG 16 (Strong Institutions), SDG 17 (Partnerships).
- Supports digital sovereignty, ethical AI, and community trust.

### Audit Objectives

Audits within the framework aim to:

#### 1. Ensure Ethical Compliance:

- Verify adherence to privacy, fairness, and sustainability standards.
- Example: Confirm health data is anonymized per node protocols.

#### 2. Promote Transparency:

- Document decisions, budgets, and data usage on blockchain.
- Example: Track \$10,000 budget allocation for public access.

#### 3. Detect and Mitigate Issues:

- Identify biases, privacy breaches, or inefficiencies (99.8% accuracy by 2030).
- Example: Flag biased AI model for retraining.

#### 4. Engage Community:

- Involve diverse members (e.g., youth, elders) in audit process.
- Example: Collect feedback via SMS for inclusivity.

#### 5. Support Continuous Improvement:

- Recommend actions to enhance governance and operations.
- Example: Suggest training for better data management.

---

## Audit Report Template

This customizable template is adaptable to oral, paper, or digital formats.

### Audit Report

**Node Name:** [e.g., Nairobi Citizen Node]

**Audit Period:** [e.g., January 1, 2025 – March 31, 2025]

**Audit Date:** [e.g., April 10, 2025]

**Auditors:** [e.g., Amina Juma (Facilitator), John Doe (Youth Rep), Mary Smith (Elder)]

**Facilitator:** [e.g., Regional Hub, East Africa]

#### 1. Audit Scope

- **Areas Audited:** [e.g., Governance decisions, budget allocation, health data usage, AI tool compliance].
- **Tools/Resources Reviewed:** [e.g., Health Dashboard, Blockchain Ledger, Field-Test Logbook (Appendix F)].
- **Standards Applied:** [e.g., Digital Commons Ethics Charter (Appendix B), Data Sovereignty Protocol (Appendix D)].

#### 2. Methodology

- **Data Collection:** [e.g., Reviewed blockchain logs, conducted SMS surveys, interviewed 20 members].
- **Analysis:** [e.g., Automated bias scanner for AI, manual budget reconciliation].
- **Community Involvement:** [e.g., 50% quorum in audit review meeting, 66% approval of findings].

#### 3. Findings

- **Compliance:**
  - [e.g., 98% adherence to data privacy protocols; 100% budget transparency].
  - [e.g., AI tool showed 2% gender bias, requiring retraining].
- **Issues Identified:**
  - [e.g., Incomplete documentation for \$5,000 expenditure].
  - [e.g., Limited youth participation in voting (30% turnout)].
- **Strengths:**
  - [e.g., Robust community engagement via SMS voting].
  - [e.g., 100% renewable energy for tablet operations].

#### 4. Recommendations

- **Immediate Actions:**

- [e.g., Retrain AI model within 30 days to address bias].
- [e.g., Document missing budget records by April 20, 2025].
- **Long-Term Improvements:**
  - [e.g., Increase youth outreach for 50% voting participation by Q3 2025].
  - [e.g., Train 10 members on data governance by June 2025].
- **Resource Needs:**
  - [e.g., \$2,000 for AI retraining, 5 volunteer hours for training].

## 5. Community Feedback

- **Input Received:** [e.g., 80% of 50 surveyed members approved findings via SMS].
- **Concerns Raised:** [e.g., Need for more accessible audit summaries in audio format].
- **Resolution Plan:** [e.g., Publish audio summary by April 15, 2025].

## 6. Audit Outcome

- **Compliance Status:** [e.g., 95% compliant; minor issues to be resolved by May 2025].
- **Next Steps:** [e.g., Implement recommendations, schedule follow-up audit for July 2025].
- **Approval:** [e.g., 66% node vote on April 12, 2025].

### Signatures:

- Lead Auditor: [e.g., Amina Juma, Node Facilitator].
- Community Representative: [e.g., John Doe, Youth Representative].
- Facilitator (if applicable): [e.g., Sarah Kim, Regional Hub Coordinator].

### Attachments:

- [e.g., Blockchain ledger extract, SMS survey results, Field-Test Logbook entries].

---

## Audit Process

A participatory process ensures thorough and inclusive audits.

### 1. Plan Audit (1 week):

- Define scope (e.g., budget, data usage) using Ethics Audit Template (Appendix H).
- Assemble diverse audit team (e.g., elders, youth, facilitators).
- Example: Senegal planned a health data audit with 5 auditors.

### 2. Collect Data (1-2 weeks):

- Review blockchain logs, tool analytics, and node records.
- Gather feedback via SMS, interviews, or paper surveys.
- Example: Brazil collected 100 SMS responses on governance compliance.

### 3. Analyze Findings (1 week):

- Use automated tools (e.g., bias scanners) and manual checks.
- Identify compliance, issues, and strengths.
- Example: Canada detected 1% bias in AI cultural archive tool.

### 4. Draft Report (1 week):

- Complete template, summarizing findings and recommendations.
- Translate into local languages or audio for accessibility.

- Example: India drafted report with audio summary for elders.

#### 5. Review and Approve (1 week):

- Present to community for 66% majority approval (50% quorum).
- Incorporate feedback and finalize report.
- Example: Kenya's node approved report with 70% vote.

#### Accessibility:

- Oral audits for non-literate members.
- Multilingual templates (50 languages by 2030).
- Hub mentors assist with process.

**Metrics:** 95% audit completion, 90% community involvement by 2035.

## Reporting and Follow-Up

Transparent reporting and follow-up ensure accountability.

#### • Reporting:

- Share report with node, Regional Hub, and [globalgovernanceframework.org](https://globalgovernanceframework.org).
- Publish in local languages, audio, or braille formats.
- Example: Senegal's report was shared via SMS and community boards.

#### • Follow-Up:

- Implement recommendations within 30 days for critical issues.
- Schedule follow-up audit (e.g., 3 months later).
- Example: Brazil retrained AI and audited again in 2 months.

#### • Transparency:

- Upload report to blockchain ledger for public access.
- Example: Canada's audit logs verified 100% transparency.

#### Tools:

- SMS feedback.
- Field-Test Logbook (Appendix F) for tracking actions.
- Automated compliance scanners for efficiency.

**Metrics:** 95% transparent reporting, 80% recommendation implementation by 2035.

## Example Audit Report

**Node Name:** Nairobi Citizen Node

**Audit Period:** January 1, 2025 – March 31, 2025

**Audit Date:** April 10, 2025

**Auditors:** Amina Juma (Facilitator), John Doe (Youth Rep), Mary Smith (Elder)

**Facilitator:** East Africa Regional Hub

### 1. Audit Scope

- **Areas Audited:** Health data usage, budget allocation, SMS voting compliance.
- **Tools/Resources Reviewed:** Health Dashboard, Blockchain Ledger, SMS Voting Template (Appendix C).

- **Standards Applied:** Ethics Charter (Appendix B), Data Sovereignty Protocol (Appendix D).

## 2. Methodology

- **Data Collection:** Reviewed blockchain logs, conducted SMS survey (100 responses), interviewed 15 members.
- **Analysis:** Used bias scanner for Health Dashboard, manual budget checks.
- **Community Involvement:** 60% quorum in review meeting, 70% approval of findings.

## 3. Findings

- **Compliance:** 97% adherence to data privacy; 100% budget transparency.
- **Issues Identified:** 1% bias in health data analytics; \$2,000 expenditure undocumented.
- **Strengths:** High SMS voting participation (80%); 100% renewable energy for tablets.

## 4. Recommendations

- **Immediate Actions:** Retrain analytics model by May 10, 2025; document expenditure by April 20, 2025.
- **Long-Term Improvements:** Train 10 members on bias detection by July 2025.
- **Resource Needs:** \$1,500 for retraining, 10 volunteer hours.

## 5. Community Feedback

- **Input Received:** 85% of 100 surveyed approved findings via SMS.
- **Concerns Raised:** Need audio report for elders.
- **Resolution Plan:** Publish audio summary by April 15, 2025.

## 6. Audit Outcome

- **Compliance Status:** 97% compliant; issues to be resolved by May 2025.
- **Next Steps:** Implement recommendations, follow-up audit in July 2025.
- **Approval:** 70% node vote on April 12, 2025.

### Signatures:

- Amina Juma, Node Facilitator.
- John Doe, Youth Representative.
- Sarah Kim, Regional Hub Coordinator.

**Attachments:** Blockchain ledger extract, SMS survey results.
